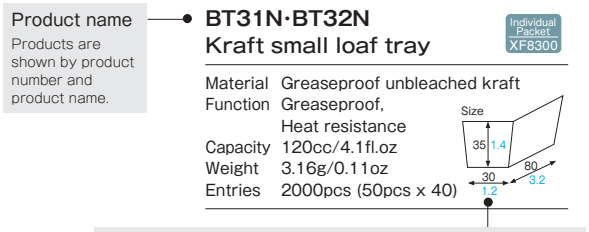
How to! [How to use this catalog]

About this catalog

The index is colored coded by the type of product. Use it along with the table of contents to make it easier to search for products.

Specifications

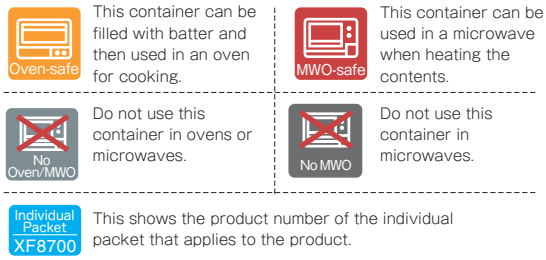
Shows information such as product names, materials and functions that will help you choose a suitable product.
Product sizes are shown in the illustration at the below right.



Material This shows the main materials used in the product.
Function This shows the main features and characteristics of the product.
Capacity This shows the amount of water the product holds when it is filled. (Units = cc/fl.oz)
Weight The weight of one item. (Units = g/oz)
There may be a slight variation depending on the lot.
Entries This shows the breakdown of the number of cases and packaging.

Icons

The icons beside the product specifications show heat-resistant properties and also the product numbers for individual packets. Select products which suit the way you want to use them.



From production to disposal

- Cups and trays for cooking baked sweets make baking moulds unnecessary which leads to reduced energy and improved efficiency.
- After baking, they can be used for wrapping, protecting the baked products and keeping them attractive.
- Most of our products use paper as their main raw material, meaning they can be used in metal detectors to ensure they are completely free from any metal particles from the production process and they are also easy to dispose of.

Precautions to take when using our products

- Please do not use the products herein at temperatures over 200℃ (392 °F), or bake them without any batter inside.
- Do not leave them near open flames.
- Water and moisture may cause the shape to change.
- Oil may cause stains or discoloration.
- Please store in a dry and well ventilated place.
- The functions and uses for each product do not imply that they can be used for any and all purposes under any and all conditions. Some of the products are not suited to some uses, so please check the product before using it.

About the products listed in this catalog

Some of the products listed in this catalog are manufactured by China Wuxi TEMMA SHIKI and Chinese manufacturers. Please rest assured that these products are manufactured under the same quality standards as our Japanese factories.

Material Siliconized unbleached parchment
Entries 1500pcs (1500pcs×1)

01 **All products in TEMMA Natural Collection use unbleached materials. The unbleached paper does not go through bleaching process during the paper making procedures. This enables our products to hold the natural texture of the original wood.**

02 **Up until now, unbleached kraft paper was thin and unsuitable for baking trays. In collaboration with paper manufacturers, TEMMA has developed a kraft paper with the strength and thickness needed for a baking tray which is also greaseproof and unbleached.**

03 **The simplicity of the unbleached materials draws out the taste of your sweets and lets the ingredients speak for themselves.**

Foodware collection

Paper straw

TEMMA's original paper straws have joined the product line. We make this product in Japan for the safety and peace of mind of consumers.

[Main use　For beverages]

Natural texture with smooth mouthfeel.

The outer surface of the straw is pergamin paper produced in the EU for a smooth mouthfeel that does not stick to lips.

Wrapped individually in paper.

This product is wrapped individually in paper for food to go and customers serving themselves.

Safe and secure made-in-Japan product.

The paper straws go through the entire manufacturing process in Japan, so they are safe to use.

The size of the paper straw are the actual size.

Material／Ivory paper

The size of the paper cutlery are the actual size.

※ The paper cutlery is non-waterproof and not suitable for warm food or long-time usage.

Tasting paper tray

No Oven/MWO

Paper trays are the best choice for food tasting at supermarkets or food exhibitions, where very many small food trays and containers are used every day.
They help reduce plastic waste. In addition, they contribute to improving operational efficiency because they can be disposed of as combustible waste without washing.

[Main use　For tasting]

Food pail

TEMMA's food pail, with its inside laminated with film, holds watery or greasy food.
We recommend food pail as a lunch box for a rice bowl dish and a light meal.

[Main use　Food & Snack taking out]

※ Check in advance when you plan to use this product for liquid food with low viscosity.
※ This product is not suitable for long-time storage of food.

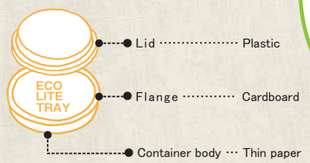
ECO LITE TRAY

Japanese patent No.5507333

ECO LITE TRAY - super light and yet has high resistance to deformation

ECO LITE TRAY is a new original container with more cost-cutting and also less weight than those existing paper containers, using cardboard for flange where requires strength and thin paper for container body.



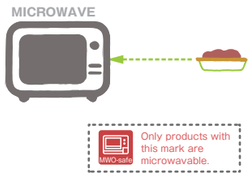
ECO-FRIENDLY product

We succeeded in decreasing the ratio of using materials compared to the same sized paper plates / trays. This is a next generation of eco-friendly paper container with more efficient use of resources.

ECO

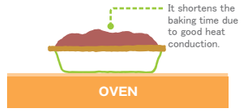
Microwave friendly

Eco lite tray deli and eco lite tray B series are not only safe for the oven but also for the microwave.



Saving utility costs

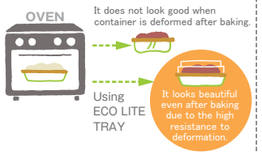
It shortens the baking time and also saves utility costs since ECO LITE TRAY has higher thermal conductivity than the same sized paper plates / trays due to using thin paper for container body.



※The above illustration is an image of oven. Please don't use over direct heat.

High resistance to deformation after baking

ECO LITE TRAY has high resistance to deformation after baking due to using cardboard for flange.
*matching lids are also available.



Cutting transportation cost and CO_2

It can cut the transportation cost and also CO_2 since ECO LITE TRAY is much lighter than the same sized paper plates / trays.

ECO LITE TRAY

Oven-safe MWO-safe

TEMMA's unique idea developed into eco lite tray, our original food container.
Eco lite deli is perfect for gratin and pasta.
Eco lite B series is microwavable.

[Main use Baking, Cake & Food cup]

Microwave safe with or without the lid.

※ Check in advance when you plan to use this product for liquid food with low viscosity.

Greaseproof kraft bag

MWO-safe

These bags are made from thin, flexible greaseproof tissue paper, so they do not curl in the way that laminated poly bags do.
They are air-permeable, reducing stickiness from steam or oil and do not affect the flavor of the food. Custom printing is also available.

[Main use　Food & Snack taking out]

Cube cup

Oven-safe

The non-tapered, straight shape make it look exactly like a cube.
These versatile cups are great for baking as well as for holding small food items or other products.

[Main use　Baking, Sundry goods]

The cups are folded for delivery which saves space for storage. Each inner box contains 100 cups and 100 bottom papers.

The cups are one-touch forming design.The bottom paper is to prevent leakage of batter when using them for baking. Both the cup and the bottom paper are greaseproof.

Kraft baking tray

Material	Greaseproof unbleached kraft
Function	Greaseproof, Heat resistance
Capacity	❶125cc/4.2fl.oz ❷210cc/7.1fl.oz ❸340cc/11.5fl.oz
Weight	❶3.70g/0.13oz ❷5.20g/0.18oz ❸7.30g/0.26oz
Entries	1000pcs (50pcs×20)

Greaseproof unbleached kraft paper is an original material only by TEMMA!

In partnership with a paper manufacturer, TEMMA developed unbleached kraft made of virgin pulp, which is suited for baking. This material has thickness, strength and grease resistance, which are all necessary for baking trays. The unbleached, plain and soft texture accentuates the ingredients and tastes of sweets and other food.

Ring cup

Oven-safe

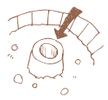
This new style of cup has been created by putting a tube in the center of our standard PET cup. Use it for donuts, cup cakes or savory breads. Let your creativity loose and produce some fun, eye-catching treats!

[Main use Baking, Cake cup]

Use the top effectively

Why not attach a sticker of the logo for your shop or the product to the top of the central tube?

Take advantage of the ring shape



The cup with a hollow tube makes the ring shape look more clearly.

※ Batter may leak through the seam joint of the tube with the cup depends on the viscosity of the batter. Please be sure to order a sample and test it before making your purchase.

How to use paper moulds.

"Super simple and extremely easy!!"

1 **Pour the batter directly into the cups. (No pre-greasing!!)**

2 **Place the paper moulds on a baking tray then put in the oven.**

3 **Bake, then all done!!**

What are the advantages of the TEMMA bakeware?

1. **No need for metal mould!**
The paper moulds are self-standing for oven baking. A metal mould is not required.
They are easily removed from the baked food without sticking. No need to grease before baking.

2. **Easy baking & disposable!**
Easy to use!! Just fill each cup with batter, then bake in the oven.
Heat resistance is up to 200°C(400°F). Cups are disposable!! Reduces time to clean up.

3. **Perfect for gifts!**
Great for gifts! They maintain brilliant colors and beauty even after baking!
Simple confections can be gorgeously presented.

4. **Safe!**
No recycled paper or paper containing fluorescence dye is used in TEMMA bakeware.
TEMMA bakeware is completely safe for food usage.

5. **Eco-friendly!!**
Principal material used in TEMMA bakeware is paper. Paper made from wood which is recyclable and emits no CO_2 during burning. Very friendly to the environment.
No process for cleaning and sterilization is needed, reducing water and energy usage.

METAL MOULD
200°C(400°F)
GIFT
SAFETY
ECOLOGY

CAUTION

- Do not bake without dough inside.
- Do not expose the container to direct fire.
- Do not use it in a toaster oven.
- Store in a dry, well ventilated place.

Ripple Cup

Ripple cup

Oven-safe

We've added two new shapes to our popular line which feature a corrugated material on the outside. Our square design is great for chiffon cake and other baked goods as well as a container for various other sweets. The oval design is fantastic for pound cake or cheese cake.

[Main use　Baking, Cake cup]

Both the square and oval models open out, making any treat easy to eat.

SC401 [3831201]
Ripple cup square (white)

SC411 [3831211]

Aluminum tube

Oven-safe　No MWO

Insert these aluminum tubes and then pour batter into the cup. The batter will cook around them. After taking out the tube, pour cream into the resultant hole to create the perfect cream chiffon.

[Main use　Baking mould]

A501 [2660401]
Aluminum tube

A501
Aluminum tube

Material	Aluminum (Anodic oxidation coatings on aluminum)
Function	Heat resistance
Entries	10pcs (10pcs×1)

Size: 125 4.9 / 45 1.8

Place the aluminum tube in the cup and pour the batter into the cup. Bringing the tube close to the edge of the cup will make the pouring process easier.

Move the tube to the center of the cup and then bake.

Baking complete!
The tube will be quite hot immediately after baking so please be careful.

Remove the tube and pour cream into the hole and then the process is complete.

● Suitable cups

The aluminum tube can be used with many different cups.

Caution

- Please only use an oven and do not heat the product while empty or over an open flame.
- This product is non microwaveable. Using this product in the microwave could damage the microwave and/or result in a fire.
- These cups are all non-stick and require no extra coating.
- Metal scrubbers, polishing products, knives and the like will damage the alumite so please refrain from using such things.
- When removing the contents, please refrain from using a knife. Instead please use a tool made from either plastic or wood.
- Please do not put in the dishwasher or dryer as this could cause discoloration.

Maintainance

- Before using this product for the first time, wash thoroughly with dish soap.
- After using, promptly wash by putting soap on a light cloth or sponge. After wiping with a dry cloth, return the tube to storage.

Swell case cup & PET cup

Swell case cup

Swell case cup

Cups can be made of the materials listed below using metal molds shown on the following page onward.
Choose the material that suits the usage.
Contact us for a proposal on the best material that caters to your need.

[Main use　Baking, Cake & Food cup]

［Paper list］ Select the shape and size from the table on the following page onward.

Photo	Material	Features	Main use	Baking aptitude	Printing aptitude
	Bleached glassine paper	● Highly transparent and shiny ● Low cost	● Mould for breads and cakes ● Paper liner ● For food wrapping in general	○	△ Offset printable
	Unbleached glassine paper	● Unbleached glassine paper ● Natural and plain texture	● Mould for breads and cakes ● Paper liner ● For food wrapping in general	○	△ Offset printable
	Siliconized glassine paper	● Coated by silicone on single-side of glassine ● Easy to remove:comes off easily from baked goods	● Mould for breads and cakes ● Paper liner ● For food wrapping in general	○	△ Gravure printing only
	Colored and siliconized glassine paper / pink	● Coated by silicone on single-side of colored glassine ● Silicone coating makes it easier to remove	● For holding chocolates ● Paper liner ● For food wrapping in general	×	△ Gravure printing only
	Colored and siliconized glassine paper / yellow				
	Colored and siliconized glassine paper / orange				
	Colored and resin coated glassine paper / blown	● Chocolate-colored glassine paper ● The surface is coated to reduce color loss and improve removability	● For holding chocolates ● Paper liner ● For food wrapping in general	×	△ Gravure printing only
	Parchment (Siliconized on single-side)	● Nordic paper ● Thick and highly grease-and water-resistant ※Siliconized on single-side	● Mould for breads and cakes ● Paper liner ● Baking sheet	○	×
	Parchment (Siliconized on both sides)	● Nordic paper ● Thick and highly grease-and water-resistant ※Siliconized on both sides	● Mould for breads and cakes ● Paper liner ● Baking sheet	○	×
	Unbleached and siliconized greaseproof paper	● Nordic paper ● Thick and highly grease-and water-resistant ※Siliconized on both sides	● Mould for breads and cakes ● Paper liner ● Baking sheet	○	×
	Brown slip easy	● Nordic paper ● More matt texture than brown-colored and resin coated glassine paper ● Grease-resistant	● For holding chocolates ● Paper liner ● For food wrapping in general	×	○ Offset printable
	Bleached greaseproof paper	● Highly grease-resistant ● Suitable to printing and printing by a small lot available	● Mould for breads and cakes ● Paper liner	○	○ Offset printable
	PET laminated paper Only available for the items marked by ○	● Inside laminated by PET film ● The PET film inside increases resistance to oil and water ● Retains shape and no metal mold needed when baking	● Mould for breads and cakes ● For food wrapping in general	○	○ Offset printable
	PET film Only available for the items marked by ○	● 0.025mm-thick PET film ● Transparent and heat-resistant ● Suppresses static electricity	● Mould for breads and cakes ● For food wrapping in general	○	×

Make To Order

- All swell case cups are made to order.
- Logical MOQ (The manufacturing lot) ※ Glassine paper standard example. This may slightly change depending on paper.
- PET cups and PET film cups are only available for the items marked by ○.

PET cup

PET cup

Oven-safe

These cups can be filled with batter and baked in the oven, eliminating the need for metal pans and making them highly economical and efficient. After baking, they can be put on display in your store as they are. They're great for baking breads and cakes but also work well with a wide range of other foods.

Wax paper

No Oven/MWO

Wax paper prevents grease stains and drying of food surfaces. It is widely used for food paper liners and wrapping.
We offer many types with sophisticated designs.
Choose from the 3 sizes, according to the intended use.

[Main use　Wrapping]

150×150 (mm)

This small size is suitable for separation inside a lunchbox or wrapping sweets.
This square wax paper can be used like origami.

218×250 (mm)

This standard size is popular and easy to use.
It is versatile, with many different designs.

Cup Separator & Forming system

Temma Cup Separator (TCS)

The "Temma Cup Separator (TCS)" is the culmination of our technology and know-how we have built over the years in design and manufacturing of molding machines for paper containers. This system provides automation of cup supply. Our technical department will give their full support while you are setting up and introducing the system and will continue with after-sales support.
If you are thinking about saving labor and improving efficiency in cup supply, please contact our sales representatives about our solutions.

The Five benefits of the TCS

1. Laborsaving

Automated supply of cups saves you a lot of labor.

2. Improving productivity

Improving cup supplying capacity will improve overall productivity.

3. Support

Our technical department will look after your needs from helping with introduction and setup of the system through after-sale service.

4. Variety

TCS doesn't just work with our products, but with any containers you wish.

5. Reasonable pricing

The equipment itself is priced very reasonably and our cups are also economical.

Temma forming system

1 PRESS SYSTEM

Board press mould products

This system produces shallow, strong paper trays such as paper plates and food containers.

Thin paper press mould products

This system produces a great variety of forms, for example tulip-shaped baking cups.

Thin paper multi-press mould products

This system produces many cups with one press which saves cost, like glassine cups.

Composite paper press mould products

This system produces cups that are composite, for example PET and paper, meaning that we can produce even more functional containers.

Aluminum foil press mould products

We can produce a wide variety of shapes by utilizing the characteristic of aluminum foil.

2 ROLL UP SYSTEM

Muffin cup mould products

We can produce a wide variety of muffin cups which are standard items in any bakery.

Tubular composite paper mould products

This system produces jelly and mousse containers from composite paper.There are also many other possible applications.

Tubular press mould prducts

This system makes all sizes, from small cups all the way up to large sizes.

3 LARGE CUP SYSTEM

Tubular board mould products

This system produces large paper cups ideal for assortments of sweets or foods.

Tubular mould products with center barrel

This press makes it possible to make cake cups with a center barrel, such as for making chiffon cakes.

Shallow tubular mould products

This makes it possible to make shallow and wide cups from cardboard or fluteboard.

We go beyond in our technical know-how

We, TEMMA have been successfully developing many products which were difficult to produce by exisiting mechanical equipments by designing and building our own new moulds and forming machines.
We continue to turn our creative ideas into unique, high-quality products by maximizing our technical know-how we have acquired over many years.

4 FLEXIBLE FORMING SYSTEM

Large flexible mould products

This flexible system makes it possible to create any shapes by using our proprietary moulding system.

Small flexible mould products

This mould produces small, cute shapes that are perfect for mascot style items.

5 ROLLING SYSTEM

Spiral mould products

This produces cylindrical or conical forms paper for the cercle or centers when making cornets.

6 STACKING FORMING SYSTEM

Stacking SD mould products

This produces tapered trays for stacking using, a variety of materials in a variety of shapes and sizes.

Multifunctional stacking mould products

We can produce any shape you need for any function or application you can think of.

● Use our products to promote your fast food

Our stacking cartons find many applications as trays for takeaway purpose.

The double carton type for hamburgers can be formed into a variety of shapes to attract the eye of your customers.

● Double cartons for set packages

We have the ability to make a variety of shapes and sizes. Choose the right shape for your application such as lunch boxes.

● A rich variety and widening applications

Package individual sweet containers in our paper trays. We will propose the best shape to suit your design and distribution method.

● Japanese style doublefolding cartons

If you are making Japanese style sweets with nature in mind, please try our paper containers. They will bring out the seasonality of your products.

A variety of designs for banquet lunches and other meals. Paper will help your cooking stand out and create an atmosphere.

● A new way to package fresh fruit and vegetables

These trays are made from paper that is much stronger than ordinary paper which protects the contents. Depending on the design on the paper, they can also serve as an effective advertisement.

TEMMA creates the deliciousness that brings smiles.

At TEMMA, we have over 50 years' experience in manufacturing and selling paper containers for breads, cakes and other food items.

We believe that the products we produce must be equipped with designs and functions that make them easy for our customers to use in their food production and that convey the deliciousness of their contents when displayed in stores.

The manufacture's passion and the consumer's feeling.
We hold both of these with great importance as we continue our production day by day.

Company Information

Temma Shiki Co., Ltd. has been manufacturing baking cups, trays and packaging materials for confections and breads for over 50 years in Japan. At present, we are dealing with more than 1,000 items. Our share of sales is the highest in Japan, enabling us to become an essential company for the industry. Our company has a Technical Development and Research Division creating designs of machines and product molding. This Division has succeeded in producing many unique and varied products. Based on original technology and expertise acquired over many years, Temma Shiki Co., Ltd. constantly addresses the changing requirements and strives to produce high quality products on demand in this dynamic marketplace.

Approach to Quality and Hygiene

Quality and hygiene are critical factors for food cups and trays which are directly in contact with food.
The basic concept of our company is "management believes quality is first priority." Safe materials from the raw materials and ink for printing are used in our products.Nara & Tsukuba Plant have gained the ISO22000 standard. Our hygienic environment is the same as in food plants. We have achieved this through the installation of air showers and monitoring by a third party hygienic management company. We also have in place a unique and high standard quality control system, in addition to the ISO quality control system. Temma Shiki Co., Ltd. strives to supply high quality and reliable products that customers can use with absolute safety.

Nara & Tsukuba Plant gained ISO22000.
