TEMMA goes hand in hand with "delicious."

Delicious food makes us smile.
TEMMA has provided many types of containers
for your pleasure of eating.
We'll continue creating eco-friendly products
going forward to bring a smile to people's faces.

TEMMA creates the deliciousness
that brings smiles.

At TEMMA, we have over 60 years’ experience in
manufacturing and selling paper containers for
breads, cakes and other food items.

We believe that the products we produce must be
equipped with designs and functions that make
them easy for our customers to use in their food
production and that convey the deliciousness of
their contents when displayed in stores.

The manufacture’s passion and the consumer’s
feeling.
We hold both of these with great importance as
we continue our production day by day.

Company Information

Temma Shiki Co., Ltd. has been manufacturing baking cups, trays and packaging materials for confections and breads for over 60 years in Japan. At present, we are dealing with more than 1,000 items. Our share of sales is the highest in Japan, enabling us to become an essential company for the industry. Our company has a Technical Development and Research Division creating designs of machines and product molding. This Division has succeeded in producing many unique and varied products. Based on original technology and expertise acquired over many years, Temma Shiki Co., Ltd. constantly addresses the changing requirements and strives to produce high quality products on demand in this dynamic marketplace.

Approach to Quality and Hygiene

Quality and hygiene are critical factors for food cups and trays which are directly in contact with food.
The basic concept of our company is "management believes quality is first priority." Safe materials from the raw materials and ink for printing are used in our products. Our hygienic environment is the same as in food plants. We also have in place a unique and high standard quality control system. Temma Shiki Co., Ltd. strives to supply high quality and reliable products that customers can use with absolute safety.

TEMMAHIKI supports the Sustainable Development Goals.

As a manufacturer of paper food containers,
Temma Shiki offers FSC™-certified products
that contribute to the conservation of forest resources.

FSC Certification:

Forest Stewardship Council™ (FSC™) is an international non-profit organization dedicated to promoting responsible forest management worldwide.

Temma Shiki has been certified FSC-CoC, which guarantees that our paper is made from certified wood sourced from verified forests and other controlled raw materials, and that it is appropriately handled during product processing and distribution.

These verified forests are under the FSC-FM certification system, which validates that they are managed responsibly.

Contribution to SDGs:

The Sustainable Development Goals (SDGs) have 17 objectives and 169 targets (achievement criteria), and FSC itself contributes to 14 of the objectives and 40 of these targets.

Benefits for Companies:

Companies can demonstrate their commitment to supporting responsible forest management and conserving forest resources.

Benefits for Customers:

By choosing products with the FSC label, consumers can contribute to the conservation of forest resources.

The mark of
responsible forestry

For inquiries regarding FSC-certified products,
please feel free to contact your sales representative.

How to! [How to use this catalog]

About this catalog

The index is colored coded by the type of product. Use it along with the table of contents to make it easier to search for products.

Specifications

Shows information such as product names, materials and functions that will help you choose a suitable product.

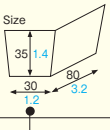

Product sizes are shown in the illustration at the below right.

Product name ● **BT31N•BT32N**
Products are shown by product number and product name.

Kraft small loaf tray

Material Greaseproof unbleached kraft
Function Greaseproof, Heat resistance
Capacity 120ml/4.1fl.oz
Weight 3.16g/0.11oz
Entries 2000pcs (50pcs x 40)

Size
This shows the external dimensions of the product. (Units = mm/inch)
Measurements for cups are base diameter x height, trays are width x length x height.

Material This shows the main materials used in the product.
Function This shows the main features and characteristics of the product.
Capacity This shows the amount of water the product holds when it is filled. (Units = ml/fl.oz)
Weight The weight of one item. (Units = g/oz)
There may be a slight variation depending on the lot.
Entries This shows the breakdown of the number of cases and packaging.

Icons

The icons beside the product specifications show heat-resistant properties and also the product numbers for individual packets. Select products which suit the way you want to use them.

This container can be filled with batter and then used in an oven for cooking.

This container can be used in a microwave when heating the contents.

Do not use this container in ovens or microwaves.

Do not use this container in microwaves.

This shows the product number of the individual packet that applies to the product.

From production to disposal

- Cups and trays for cooking baked sweets make baking moulds unnecessary which leads to reduced energy and improved efficiency.
- After baking, they can be used for wrapping, protecting the baked products and keeping them attractive.
- Most of our products use paper as their main raw material, meaning they can be used in metal detectors to ensure they are completely free from any metal particles from the production process and they are also easy to dispose of.

Precautions to take when using our products

- Please do not use the products herein at temperatures over 200°C (392 °F), or bake them without any batter inside.
- Do not leave them near open flames.
- Water and moisture may cause the shape to change.
- Oil may cause stains or discoloration.
- Please store in a dry and well ventilated place.
- The functions and uses for each product do not imply that they can be used for any and all purposes under any and all conditions. Some of the products are not suited to some uses, so please check the product before using it.

About the products listed in this catalog

Some of the products listed in this catalog are manufactured by China Wuxi TEMMA SHIKI and Chinese manufacturers. Please rest assured that these products are manufactured under the same quality standards as our Japanese factories.

Introducing Carbon-Neutral Items

We use biomass ink to print on New items Damask & Tweed. More than 10% of the ingredients of the ink is plant-based. Supporting carbon neutrality, TEMMA contributes to the reduction of CO₂ emissions by using biomass ink comparing with conventional ink.

What is carbon-neutrality?

Carbon neutrality is the idea that emissions and removal of CO₂ are balanced if their amounts are the same. CO₂ is emitted both in production and combustion of paper. Main ingredient of paper is plant material and plants absorb CO₂ through photosynthesis when they grow. Using products made of plant-based ingredients helps reduce CO₂ emissions and the use of oil resources, compared with the conventional products based on petrochemical ingredients.

TEMMA will keep on providing environment-conscious products to our customers.

01 All products in TEMMA Natural Collection use unbleached materials. The unbleached paper does not go through bleaching process during the paper making procedures. This enables our products to hold the natural texture of the original wood.

02 Up until now, unbleached kraft paper was thin and unsuitable for baking trays. In collaboration with paper manufacturers, TEMMA has developed a kraft paper with the strength and thickness needed for a baking tray which is also greaseproof and unbleached.

03 The simplicity of the unbleached materials draws out the taste of your sweets and lets the ingredients speak for themselves.

Paper cutlery

TEMMA's initiative to reduce the use of disposable plastic starts with cutlery, which is used very much in our daily lives.

[Main use For drinking and eating]

The size of the paper cutlery are the actual size.

※ The paper cutlery is non-waterproof and not suitable for warm food or long-time usage.

Paper cutlery will help reduce plastic waste.

Tasting paper tray

Paper trays are the best choice for food tasting at supermarkets or food exhibitions, where very many small food trays and containers are used every day. They help reduce plastic waste. In addition, they contribute to improving operational efficiency because they can be disposed of as combustible waste without washing.

[Main use For tasting]

Food bag

Food bag is excellent for deep fried items such as croquette or fried chicken. This bag contributes best to reducing plastic waste of to-go containers.

ECO-FRIENDLY product

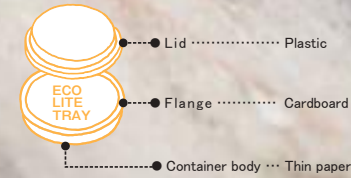

We succeeded in decreasing the ratio of using materials compared to the same sized paper plates / trays. This is a next generation of eco-friendly paper container with more efficient use of resources.

ECO LITE TRAY

ECO LITE TRAY - super light and yet has high resistance to deformation

ECO LITE TRAY is a new original container with more cost-cutting and also less weight than those existing paper containers, using cardboard for flange where requires strength and thin paper for container body.

We provide many other types of eco lite trays. Please look at the page 15.

ECO LITE TRAY

TEMMA's unique idea developed into eco lite tray, our original food container. Eco lite B series is microwavable.

Microwave friendly

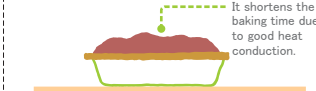

Eco lite tray B series are not only safe for the oven but also for the microwave.

Only products with this mark are microwavable.

Saving utility costs

It shortens the baking time and also saves utility costs since ECO LITE TRAY has higher thermal conductivity than the same sized paper plates / trays due to using thin paper for container body.

※The above illustration is an image of oven. Please don't use over direct heat.

High resistance to deformation after baking

ECO LITE TRAY has high resistance to deformation after baking due to using cardboard for flange.

*matching lids are also available.

Using ECO LITE TRAY
It looks beautiful even after baking due to the high resistance to deformation.

Cutting transportation cost and CO₂

It can cut the transportation cost and also CO₂ since ECO LITE TRAY is much lighter than the same sized paper plates / trays.

cutting transportation cost and CO₂

Snack tray

This tray has tilted rims that create a wide opening working well for serving fast food like hamburgers, French fries and hot dogs. The natural texture of unbleached kraft enhances the flavor of food.

Greaseproof unbleached kraft paper is an original material only by TEMMA!

In partnership with a paper manufacturer, TEMMA developed unbleached kraft made of virgin pulp, which is suited for baking. This material has thickness, strength and grease resistance, which are all necessary for baking trays. The unbleached, plain and soft texture accentuates the ingredients and tastes of sweets and other food.

Ring cup

This new style of cup has been created by putting a tube in the center of our standard PET cup. Use it for donuts, cup cakes or savory breads. Let your creativity loose and produce some fun, eye-catching treats!

[Main use Baking, Cake cup]

Use the top effectively

Why not attach a sticker of the logo for your shop or the product to the top of the central tube?

* Batter may leak through the seam joint of the tube with the cup depends on the viscosity of the batter. Please be sure to order a sample and test it before making your purchase.

Sweet cup

Our standard PET cups, made into cute shapes! Perfect for special occasions.

PET muffin cup

PET laminate on the inside of the cup reduces the oil bleeding on the paper and helps the design stay colorful after baking.

How to use paper moulds.

Disposable!!

After eating,
just throw them away!

What are the
advantages of
the TEMMA
bakeware?

CAUTION

- Do not bake without dough inside.
- Do not expose the container to direct fire.
- Do not use it in a toaster oven.
- Store in a dry, well ventilated place.

Pour the batter directly
into the cups.
(No pre-greasing!!)

Place the paper moulds on
a baking tray then put in
the oven.

Bake, then all done!!

1. No need for metal mould!

The paper moulds are self-standing for oven baking. A metal mould is not required.
They are easily removed from the baked food without sticking. No need to grease before baking.

2. Easy baking & disposable!

Easy to use!! Just fill each cup with batter, then bake in the oven.
Heat resistance is up to 200°C (400°F). Cups are disposable!! Reduces time to clean up.

3. Perfect for gifts!

Great for gifts! They maintain brilliant colors and beauty even after baking!
Simple confections can be gorgeously presented.

4. Safe!

No recycled paper or paper containing fluorescence dye is used in TEMMA bakeware.
TEMMA bakeware is completely safe for food usage.

5. Eco-friendly!!

Principal material used in TEMMA bakeware is paper. Paper made from wood which is
recyclable and emits no CO₂ during burning. Very friendly to the environment.
No process for cleaning and sterilization is needed, reducing water and energy usage.

Chiffon Cake

This delicious and healthy cake was created in America during the late 1920s. The hole in the middle allows even heat distribution, and helps the butter-free batter rise up high. A silky, light taste is achieved with meringue and salad oil.

Ingredients:
Flour, eggs, sugar, salad oil, water

Small paper tube pan

The light and fluffy chiffon cakes are a great treat to enjoy. This easy small size has been enjoying high popularity.

Entries	300pcs (25pcs x 12)		

Aluminum tube

Insert these aluminum tubes and then pour batter into the cup. The batter will cook around them. After taking out the tube, pour cream into the resultant hole to create the perfect cream chiffon.

[Main use Baking mould]

A501 Aluminum tube

Material	Aluminum (Anodic oxidation coatings on aluminum)	Size	125 4.9
Function	Heat resistance		45 1.8
Entries	10pcs (10pcs x 1)		

A501 [2660401]
Aluminum tube

Place the aluminum tube in the cup and pour the batter into the cup. Bringing the tube close to the edge of the cup will make the pouring process easier.

Move the tube to the center of the cup and then bake.

Baking complete! The tube will be quite hot immediately after baking so please be careful.

Remove the tube and pour cream into the hole and then the process is complete.

● Suitable cups

The aluminum tube can be used with many different cups.

Caution

- Please only use an oven and do not heat the product while empty or over an open flame.
- This product is non microwaveable. Using this product in the microwave could damage the microwave and/or result in a fire.
- These cups are all non-stick and require no extra coating.
- Metal scrubbers, polishing products, knives and the like will damage the alumine so please refrain from using such things.
- When removing the contents, please refrain from using a knife. Instead please use a tool made from either plastic or wood.
- Please do not put in the dishwasher or dryer as this could cause discoloration.

Maintenance

- Before using this product for the first time, wash thoroughly with dish soap.
- After using, promptly wash by putting soap on a light cloth or sponge. After wiping with a dry cloth, return the tube to storage.

Pet cup

PET cup

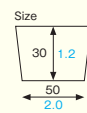

These cups can be filled with batter and baked in the oven, eliminating the need for metal pans and making them highly economical and efficient. After baking, they can be put on display in your store as they are. They're great for baking breads and cakes but also work well with a wide range of other foods.

[Main use Baking, Cake & Food cup]

PTC05030 PET cup

Material Bleached kraft/PET
Function Waterproof,
Greaseproof,
Heat resistance
Capacity 85ml/2.87fl.oz
Weight 0.92g/0.03oz
Entries 7200pcs (300pcs × 24)

PTC05030 [4798820]
PET cup (polka-dot/pink)

PTC05030 [4798821]
PET cup (polka-dot/yellow)

※ There may be cases where moisture or oil start to seep through the wax paper through wear and tear over time.

Wax paper

Wax paper prevents grease stains and drying of food surfaces. It is widely used for food paper liners and wrapping. We offer many types with sophisticated designs.

Choose from the 3 sizes, according to the intended use.

[Main use Wrapping]

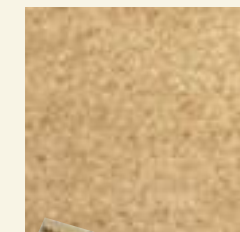

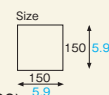

150×150 (mm)

This small size is suitable for separation inside a lunchbox or wrapping sweets. This square wax paper can be used like origami.

Size W60/2.4×D50/2.0×H230/9.1 Weight 3.30g/0.12oz
Entries 1000pcs (100pcs×10) Material OPP/PE

XF8800 Individual packet [2781016]
Size W130/5.1×D65/2.6×H320/12.6 Weight 7.97g/0.28oz
Entries 1000pcs (100pcs×10) Material OPP/PE

XF8900 Individual packet [2781017]
Size W160/6.3×D70/2.8×H370/14.6 Weight 10.79g/0.38oz
Entries 600pcs (100pcs×6) Material OPP/PE

FS6000 Individual packet (polka-dot) [2630007]
Size W58/2.3×D47/1.9×H140/5.5
Entries 3000pcs (100pcs×30)
Weight 1.96g/0.07oz
Material OPP/PE

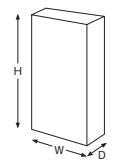

FS6100 Individual packet (Japanese paper) [2630008]
Size W58/2.3×D47/1.9×H140/5.5
Entries 3000pcs (100pcs×30)
Weight 2.82g/0.10oz
Material Tissue paper/OPP/PE

FS6200 Individual packet (gradation) [2630009]
Size W58/2.3×D47/1.9×H140/5.5
Entries 3000pcs (100pcs×30)
Weight 2.86g/0.10oz
Material Rayon/OPP/PE

Code description

Individual packet Suitable products

Choose the individual packet that best fits your container's size.
Please note that some packets are sold in different quantities to the containers you may wish to use with.

Product name	Suitable products (in the page order of this catalog)
XF6300	ST : Loaf tray (ST202N) / CT : Baking tray (CT202-206-502-602)

Cup Separator & Forming variation

Temma Cup Separator (TCS)

The "Temma Cup Separator (TCS)" is the culmination of our technology and know-how we have built over the years in design and manufacturing of molding machines for paper containers. This system provides automation of cup supply. Our technical department will give their full support while you are setting up and introducing the system and will continue with after-sales support. If you are thinking about saving labor and improving efficiency in cup supply, please contact our sales representatives about our solutions.

The Five benefits of the TCS

1.

Laborsaving

Automated supply of cups saves you a lot of labor.

2.

Improving productivity

Improving cup supplying capacity will improve overall productivity.

3.

Support

Our technical department will look after your needs from helping with introduction and setup of the system through after-sale service.

4.

Variety

TCS doesn't just work with our products, but with any containers you wish.

5.

Reasonable pricing

The equipment itself is priced very reasonably and our cups are also economical.

TEMMA Forming variation

TEMMA has a wide variety of molding machines and equipment to meet the diverse needs of our customers.

1 Single-sheet press molding

【Applicable products】 EU cap, Pie tray, Petit gâteau cup

Since it is press-molded from a single sheet of base paper, dough will not seep through the mold. It can maintain its shape and can be baked as is. It does not require a metal baking mold, so it also removes the hassle of having to clean it.

2 Single-sheet press molding (top curl)

【Applicable products】 Curled cup

Single-sheet press molding with a top curl finish. Since it is laminated with PET, there is no seepage. Dedicated lids are also available, so it is ideal for individual food containers for sweets and other foods.

5 Multiple-sheet press molding

【Applicable products】 Glassine cup, Greaseproof paper cup, PET cup, PET film cup, etc.

This is a standard group of cups that emphasizes cost via laminating multiple thin sheets of paper, such as glassine, silicone-coated paper, PET-laminated paper, and PET film. We offer a wide variety of materials, shapes, and sizes to meet your needs.

6 Multi-sheet press molding (with paper tube)

【Applicable products】 Ring cup

Secondary processing is applied to the PET cups press-molded from multiple sheets, attaching a paper tube to each one. A TEMMA original cup with a unique donut shape that will be the centerpiece of any store.

3 Single-sheet press molding(unique shapes)

【Applicable products】 Sweet cup

Single-sheet press molded unique shaped cups. By laminating PET onto the base paper, it is possible to mold a variety of colorful shapes, such as hearts, cats, stars, and flowers.

4 Single-sheet press molding (pleated)

【Applicable products】 Pleated IT cup, Pleated OT cup, Tulip cup, Plain cup, PET cake cup, etc.

Since it is press-molded by folding a single sheet of base paper along the pleats, there is no dough leakage. When eating, open up the pleats to create a convenient and easy-to-eat cup that can also be used as a plate.

7 Body and bottom parts molding

【Applicable products】 Muffin cup, Baking cup, Tall cup, Café sweets, etc.

The body and bottom parts are molded into a sharp silhouette by adhering them together. These are familiar cups suitable for muffins and chiffon cakes. We offer a wide variety of products in various materials, shapes, and sizes.

8 Multi-part molding (composite materials)

【Applicable products】 Eco lite tray, Round cocotte, Frosted cup, Dessert cup, etc.

Various TEMMA original products molded using parts with different thicknesses and materials for the body, bottom, and flange. We offer unique shapes, textures, and functionalities.

TEMMA Forming variation

TEMMA has a wide variety of molding machines and equipment to meet the diverse needs of our customers.

9 Top-curl molding (paper cup type)

[Applicable products] Rolled free cup, Petit cake cup

While this method is similar to paper cup molding, it uses a different PET-laminated base paper than those used for beverages, allowing for a wider range of uses, such as heating in the microwave or baking in the oven.

10 Top-curl molding (flat bottom)

[Applicable products] Rolled free cup (shallow type), Rolled paper tube pan

This is a top-curl molding method that results in a flat bottom surface, unlike the raised bottom shape of paper cups. Our chiffon cake cups with paper tubes are also very popular.

11 Paperboard cup molding

[Applicable products] Mini foam cake cup, Soft cup, Middle cup, Mini cup

E-flute corrugated paperboard is formed into cups. These cups offer a three-dimensional look and a soft texture that flat paperboard cannot provide, while also having a cushioning function.

12 Paperboard cup molding (with paper tube)

[Applicable products] Paper tube pan, Small paper tube pan, Large paper tube pan

E-flute corrugated paperboard cups with paper tubes for baking chiffon cakes. Compared to expensive metal baking molds that require washing, this bestselling product is excellent for labor saving and efficiency, as it can be sold as is after baking.

14 Stacking tray molding (side-glued)

[Applicable products] Loaf tray, Hard loaf tray, Double-side folded small loaf tray

Tapered trays are molded by folding the side part of the long side once or twice. A sharp silhouette is maintained by suppressing the widening of the diameter after baking.

15 Stacking tray molding

[Applicable products] Baking tray, Kraft cube, Paper cocotte, Triangle cup, etc.

Stackable tapered tray. We can work to accommodate your desired size and shape using a wide range of materials, including functional paper and paperboard. There are three types of adhering methods, and you can choose the molding method that suits your application and requirements.

Three types

[Inner glue flap]

Glued to the inside of the tray. For instances where you want to make the appearance of the tray look neat and tidy, or when you want to emphasize the design.

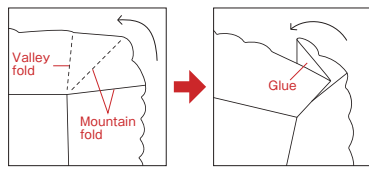

[Outer glue flap]

Glued to the outside of the tray. Mainly for baking purposes, such as for not letting the flap touch the dough and making it easy to open the tray housing the baked goods when eating.

[Watertight gluing]

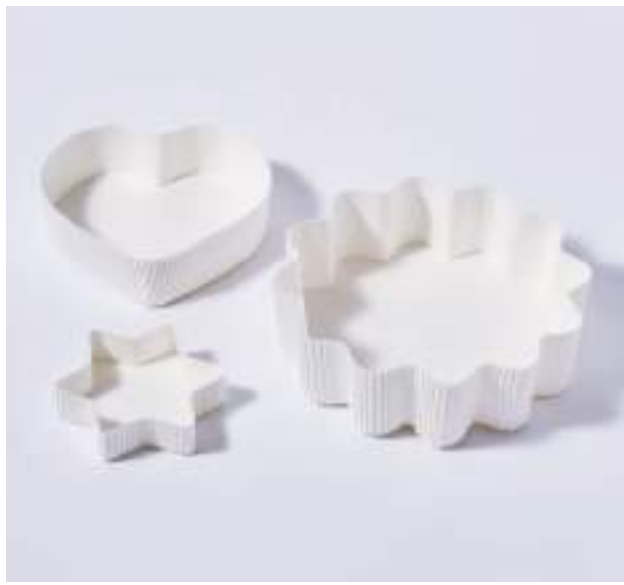

The glued flap is folded into a triangle instead of a flap, and there is no gap in the corners of the bottom side of the mold, preventing dough or liquid from leaking.

13 Paperboard cup molding (unique shapes)

[Applicable products] Decorative fancy cup flower

Unique shaped cups made from E-flute corrugated paperboard. In addition to the standard flower shape, we have an established history of commercializing products in heart and star shapes, and our cups have also been adopted and used for popular character face shapes.
